

Annual General Meeting 2021 Nomination for Best Design Awards 2021 John Britten Black Pin

The John Britten Award is given to an outstanding individual for leadership, vision and achievement in the field of design.

This award was established in 1995 to honour the outstanding achievements of the late John Britten. John Britten was posthumously given an award, which is now called, in his honour, the John Britten Award – the highest recognition given by the Institute.

Britten, a visionary designer and lover of motorbikes single-mindedly pursued a vision that it would be possible for him to design and build a racing motorbike that would perform better in its class than any other in the world. A combination of vision, creativity, skill, energy and discipline allowed him and his team to reach this goal.

Award Criteria

An individual.

- Able to demonstrate by their achievements a combination of leadership, vision, creativity, skill, energy and discipline.
- Significant achievement in the field of New Zealand Design nationally and internationally.
- Recipients need not be members of the Designers Institute.
